28	Black Rock Desert	136	71	Grass Valley	81
29	Pine Forest Valley	184	CENTRAL REGION		
30	Kings River Valley	*200	131	Buffalo Valley	184

* Adjusted for maximum of 200 and minimum of 50.

Density is equal to the total number of septic systems per square mile. In order to calculate existing density, transcribe a circle with a 2,979 foot radius from the center of the subject property. Count the total number of equivalent dwelling units (EDUs) inside the circle which are on or proposed to be on septic systems. One EDU is defined as a unit producing 350 gallons per day of sewage.
