HUMBOLDT COUNTY CONFIRMS 32nd COVID-19 DEATH

WINNEMUCCA, Nev.— Humboldt County has confirmed its 32nd death from COVID-19.

Humboldt County Health Officer Charles Stringham, MD, said the woman, who was in her 80s, died while hospitalized after becoming severely ill. She was one of Humboldt County's previously confirmed cases.

Dr. Stringham shared his deep sadness over the woman's passing and asked the community to honor her memory through their kindness.

"I know so many of us feel limited in our ability to help and to comfort these families who are grieving," he said, "but one thing we can do is extend kindness and understanding to our friends, neighbors—and even strangers."

Dr. Stringham, "While we might not be able to directly impact these families, we can create an atmosphere where they can feel hope and healing in our community."

Well over half, or 19, of Humboldt County's COVID-19 deaths have come in the past six weeks, with 13 of those deaths during the month of October alone.

Dr. Stringham continues to urge all eligible residents to get fully vaccinated with the two-dose Moderna or Pfizer vaccines.

The doctor also continues to recommend that unvaccinated and vaccinated individuals wear masks while indoors or while in crowded outdoor settings.

The following vaccination opportunities are available to Humboldt County residents:
