HUMBOLDT COUNTY CONFIRMS THREE MORE DEATHS; STATE REMOVES ONE

WINNEMUCCA, Nev.— Humboldt County has confirmed three more deaths from COVID-19. The State of Nevada has also removed a previous death from the county; the number of residents who have passed in Humboldt County since the pandemic began is now 36.

Humboldt County Health Officer Charles Stringham, MD, said the deceased include a man in his 60s, a woman in her 70s, and a man in his 40s; all died while hospitalized after becoming severely ill.

Dr. Stringham shared his condolences with the family and friends of the deceased. “We offer our kind thoughts for hope and healing in the days to come,” he said.

He added his hope that local residents can view each death as an individual who was beloved by family members and friends, and not as a statistic in the continuing pandemic.

“While the details surrounding each death are private, I want to publicly express my sorrow for those involved,” he said.

Dr. Stringham continues to urge all eligible residents to get fully vaccinated with the two-dose Moderna or Pfizer vaccines.

The doctor also continues to recommend that unvaccinated and vaccinated individuals wear masks while indoors or while in crowded outdoor settings.

The following vaccination opportunities are available to Humboldt County residents:

- **Ridley’s Pharmacy** is offering the Moderna, Pfizer and Johnson & Johnson vaccines to Humboldt County residents age 18 and older. No appointment is necessary; drop by anytime between 9 a.m. and 6 p.m. Monday through Friday, not including holidays.
