## HUMBOLDT COUNTY REPORTS 35 NEW COVID-19 CASES

WINNEMUCCA, Nev. — Humboldt County has been notified of 35 more positive cases of COVID-19, from Wednesday, November 24, through Wednesday, December 1, raising the overall cumulative total to 2625.

In all, the county has 2534 recovered and 52 active cases. Two hospitalized people were released during the week; three other COVID-19 patients remain hospitalized. In all, 39 county residents have died.

Humboldt County Health Officer Charles Stringham, MD, continues to recommend that unvaccinated and vaccinated individuals wear masks while indoors or while in crowded outdoor settings. He also continues to recommend that all eligible residents get fully vaccinated with the two-dose Moderna or Pfizer vaccines.

In other news:

- For the month of November, the county confirmed 165 COVID-19 cases. As of December 1, Humboldt County has not confirmed any cases.
- Of November's 165 cases, 31—or about 19%—are fully vaccinated; three are partially vaccinated; and 79% are unvaccinated.
- Humboldt County has had five breakthrough infections, meaning a fully vaccinated person who was hospitalized. All five persons have since been released. Per the information provided by the State of Nevada, Humboldt County has not had any vaccinated deaths.
- Humboldt County is a high risk transmission area according to the Centers for Disease Control [county tracker](#). Humboldt County's average number of tests is **195** (186 on November 23); case rate is **237** (397 on November 23); and test positivity rate is **5.0%** (4.1% on November 23).
- Currently, 43% of Humboldt County's population has initiated vaccination and 38% has completed vaccination. In all, 46% of the population over age 5 has initiated vaccination.
- Pfizer vaccines for 5- to 11-year-old children have been approved and are now available through Humboldt County Community Health. Please call (775) 626-6575 to make an appointment.
- Booster doses of the COVID-19 vaccine are now available for the Moderna, Pfizer and Johnson & Johnson vaccines for all populations. Recipients of the two-dose Moderna or Pfizer vaccines should receive a booster six months following their second shot; recipients of the Johnson & Johnson vaccine should receive a booster two months following their initial vaccination.
