HUMBOLDT COUNTY REPORTS 13 NEW COVID-19 CASES

WINNEMUCCA, Nev. — Humboldt County has been notified of 13 more positive cases of COVID-19, from Thursday, December 23, through Wednesday, December 29, raising the overall cumulative total to 2687.

In all, the county has 2620 recovered and 23 active cases. One hospitalized person was released during the week; two other COVID-19 patients remain hospitalized. In all, 44 county residents have died.

Humboldt County Health Officer Charles Stringham, MD, continues to recommend that unvaccinated and vaccinated individuals wear masks while indoors or while in crowded outdoor settings. He also continues to recommend that all eligible residents get fully vaccinated with the two-dose Moderna or Pfizer vaccines plus booster.

In other news:

- As of December 29, Humboldt County has confirmed 62 COVID-19 cases for the month.
- Of December's 62 cases, 12—or about 19%—are fully vaccinated; one is partially vaccinated; and 80% are unvaccinated.
- Humboldt County has had five breakthrough infections, meaning a fully vaccinated person who was hospitalized. All five persons have since been released. Per the information provided by the State of Nevada, Humboldt County has not had any vaccinated deaths.
- Humboldt County is a moderate risk transmission area according to the Centers for Disease Control [county tracker](#). Humboldt County's average number of tests is **175** (189 on December 23); case rate is **195** (243 on December 23); and test positivity rate is **4.6%** (5.1% on December 23).
- Currently, 44% of Humboldt County's population has initiated vaccination and 39% has completed vaccination. In all, 48% of the population over age 5 has initiated vaccination.
- To date, two cases of the Omicron variant have been identified in northern Nevada; all other positive cases remain Delta. Clark County is reporting that 19% of all its cases are now Omicron.
- Humboldt General Hospital offers a drive-through Regeneron clinic for those who test positive for COVID-19 and are experiencing mild to moderate symptoms. Treatments are available Monday through Friday. To schedule an appointment, please visit www.hghospital.org/covid. Those who cannot access the online registration should call (775) 623-7923. Proof of a positive COVID test is required. There is no cost for the Regeneron, although patients will be charged a fee for its administration. Patients must be 12 years or older AND weigh more than 80 pounds to

participate.

- Humboldt General Hospital has a COVID-19 medical provider on staff who is available to meet with those seeking to prevent COVID, those who have tested positive for the virus, and those who continue to experience the lingering effects of COVID illness. To make an appointment, please call (775) 623-5222, ext. 1379. The clinic is located at 51 E. Haskell Street in the building adjacent to the drive-through COVID-19 screening clinic.
- Pfizer vaccines for 5- to 11-year-old children have been approved and are now available through Humboldt County Community Health. Please call (775) 626-6575 to make an appointment.
- Booster doses of the COVID-19 vaccine are now available for the Moderna, Pfizer and Johnson & Johnson vaccines for all populations age 16 and older. Recipients of the two-dose Moderna or Pfizer vaccines should receive a booster six months following their second shot; recipients of the Johnson & Johnson vaccine should receive a booster two months following their initial vaccination.
