HUMBOLDT COUNTY REPORTS 86 NEW COVID-19 CASES

WINNEMUCCA, Nev. — Humboldt County has been notified of 86 more positive cases of COVID-19, from Thursday, February 3, through Wednesday, February 9, raising the overall cumulative total to 3602.

In all, the county has 3490 recovered and 64 active cases. Eleven people are currently hospitalized, one hospitalized person was released during the week, and 48 county residents have died from the virus.

Humboldt County Health Officer Charles Stringham, MD, continues to recommend that unvaccinated and vaccinated individuals wear N95, KN95 or KN94 masks while indoors or while in crowded outdoor settings. He also continues to recommend that all eligible residents get fully vaccinated with the two-dose Moderna or Pfizer vaccines plus booster.

In other news:

- As of February 9, Humboldt County has confirmed 154 COVID-19 cases for the month.
- Of February's 154 cases, 38—or 25%—are fully vaccinated; two are partially vaccinated; and 74% are unvaccinated.
- Humboldt County has had six breakthrough infections, meaning a fully vaccinated person who was hospitalized. All six persons have since been released. Per the information provided by the State of Nevada, Humboldt County has not had any vaccinated deaths.
- Humboldt County is a high risk transmission area according to the Centers for Disease Control [county tracker](#). Humboldt County's average number of tests is **268** (320 on February 3); case rate is **1426** (1349 on February 3); and test positivity rate is **22.0%** (22.3% on February 3).
- Currently, 46% of Humboldt County's population has initiated vaccination and 40% has completed vaccination. In all, 49% of the population over age 5 has initiated vaccination.
- Immunize Nevada will host a free walk-up COVID-19 and Flu Vaccine Clinic from 9 a.m. to 4 p.m. Tuesday, February 22, at the Pleasant Senior Center, 1480 Lay Street. Participants should use the senior center's front door; masks must be worn at all times. For more information, please call (775) 375-3200.
- Please note that the best time to test for COVID-19 is 5 days after exposure; persons should quarantine until testing can take place. Those who test negative at 5 days should continue to wear a mask until day 10. Those who test positive should begin their 5-day isolation period from the date of testing. Those who are exhibiting symptoms should not wait and should test immediately.

- Humboldt General Hospital has a COVID-19 medical provider on staff that is available to meet with those seeking to prevent COVID, those who have tested positive for the virus, and those who continue to experience the lingering effects of COVID illness. To make an appointment, please call (775) 623-5222, ext. 1379. The clinic is located at 51 E. Haskell Street in the building adjacent to the drive-through COVID-19 screening clinic.
- Pfizer vaccines for 5- to 11-year-old children have been approved and are now available through Humboldt County Community Health. Please call (775) 623-6575 to make an appointment.
- Booster doses of the COVID-19 vaccine are now available for all populations age 12 and older. Recipients of the two-dose Moderna and Pfizer vaccines should receive a booster six months or five months (respectively) following their second shot; recipients of the single-dose Johnson & Johnson vaccine should receive a booster two months following their vaccination.
