HUMBOLDT COUNTY REPORTS SIX NEW COVID-19 CASES

WINNEMUCCA, Nev. — Humboldt County has been notified of six new cases of COVID-19, from Thursday, February 24, through Wednesday, March 2, raising the overall cumulative total to 3666.

In all, the county has 3602 recovered and 12 active cases. Four people are currently hospitalized, one hospitalized person was released during the week, and 52 county residents have died from the virus.

Humboldt County Health Officer Charles Stringham, MD, continues to recommend that all eligible residents get fully vaccinated with the two-dose Moderna or Pfizer vaccines plus booster.

Immunize Nevada will host a free walk-up COVID-19 and Flu Vaccine Clinic from 9 a.m. to 4 p.m. Friday, March 4, at the Pleasant Senior Center, 1480 Lay Street. Participants should use the senior center's front door; masks must be worn at all times. For more information, please call (775) 375-3200.

In other news:

- As of today, 17,034 (+80) total COVID-19 vaccine doses have been administered including 8,008 (+17) initiated doses and 7,069 (+32) second doses. Currently, 47 percent of our population has initiated vaccination and 41 percent has completed vaccination. In all, 50 percent of our population over age 5 has initiated vaccination.
- During February, Humboldt County confirmed 216 COVID-19 cases for the month; as of March 2, the county has confirmed two new cases.
- Of February's 216 cases, 60—or 28%—are fully vaccinated; three are partially vaccinated; and 71% are unvaccinated.
- Humboldt County has had six breakthrough infections, meaning a fully vaccinated person who was hospitalized. All six persons have since been released. Per the information provided by the State of Nevada, Humboldt County has had one fully vaccinated death.
- Humboldt County is a moderate risk transmission area according to the Centers for Disease Control [county tracker](#). Humboldt County's average number of tests is **153** (174 on February 24); case rate is **426** (752 on February 24); and test positivity rate is **6.1%** (13.6% on February 24).
- Please note that the best time to test for COVID-19 is 5 days after exposure; persons should quarantine until testing can take place. Those who test negative at 5 days should continue to wear a mask until day 10. Those who test positive should begin their 5-day isolation period from the date of testing. Those who are exhibiting symptoms should not wait and should test

immediately.

- Pfizer vaccines for 5- to 11-year-old children have been approved and are now available through Humboldt County Community Health. Please call (775) 623-6575 to make an appointment.
- Booster doses of the COVID-19 vaccine are now available for all populations age 12 and older. Recipients of the two-dose Moderna and Pfizer vaccines should receive a booster six months or five months (respectively) following their second shot; recipients of the single-dose Johnson & Johnson vaccine should receive a booster two months following their vaccination.

Brief summary information of Humboldt County's latest cases follows:

Case #	Gender	Age Range	Contact	Status
3661	Woman	20s	Under investigation	Recovered
3662	Woman	20s	Under investigation	Recovered
